BENGALURU: The police's role in ensuring women's safety is limited to treating the symptoms of the problem and not the problem itself, City Police Commissioner M N Reddi said on Saturday.

He was speaking at a workshop on women's safety organised at the Press Club. He said offences against women are symbolic of the problem, but don't tell the whole story. "The police have a limited role in solving the problem. We file FIRs, investigate the case and bring

the perpetrators to book. We set up systems that help prevent crimes against women. But the crimes are just symptoms of a deeper problem," he said.

# Women Self Defense is stuck in ice age mindset. We Change it.

**FACT :** Martial Art Tricks follow rules of sport, Criminals will Cheat & use Weapons

- Criminals are not honorable to follow rules. Martial arts tactics are great for sports where rules keep fighters safe.

**FACT :** Known people commit harassment, rape & abuse much more than strangers

- Will a women punch, kick or do martial arts tricks on a abuser she trusts, cares and in some cases loves also ?

**FACT :** Women usually are Non-Violent by Nature & Insecure about Size & Strength

- Most women are insecure about their size, strength & fitness level, they don't want to fight with a bigger, stronger man.

**FACT :** Under the Stress of the Threat, Victims will Freeze & Panic in Fear

- Criminals use shock, surprise to convert fear into panic, fear can only be over come with knowledge.
